Description

GigE Vision camera with Sony IMX249 sensor, global shutter

Mako G-234B/C is an industrial GigE camera with Sony's IMX249 sensor. Mako G cameras have the same compact form factor and the same mounting positions as many analog cameras. All models include PoE, three opto-isolated outputs, and a 64 MB FIFO image buffer. The image quality profits from the precisely aligned sensors.

Options

- Various IR cut/pass filters, protection glass, various lens mounts
